***BIDEN-HARRIS PRICE HIKES:
HAVOC & HARDSHIP ON THE
AMERICAN DREAM***

FALL 2024

Dear Fellow American,

Welcome to my Economic Snapshot, a quarterly report I put out showing the current economic condition of the United States' economy. We can all feel the impact of the ongoing inflation crisis caused by the failed policies of the Biden-Harris administration, and the goal of this report is to bring in-depth attention to the fiscal cliff our nation is quickly approaching. Since Vice President Harris and President Biden took office, inflation has skyrocketed more than 20%. Biden-Harris Price Hikes are crushing hardworking American families.

In Washington, it is my job to ensure we are fighting every day to leave this country in a place where future generations can achieve the American Dream. It is personal for me. I grew up in public housing and watched my mom struggle to make ends meet. It breaks my heart that families are having to make the tough decisions and go without. It is time for a sea change in Washington so that we can get families back on their feet, this country back on the path to fiscal sanity and make Washington work for everyone.

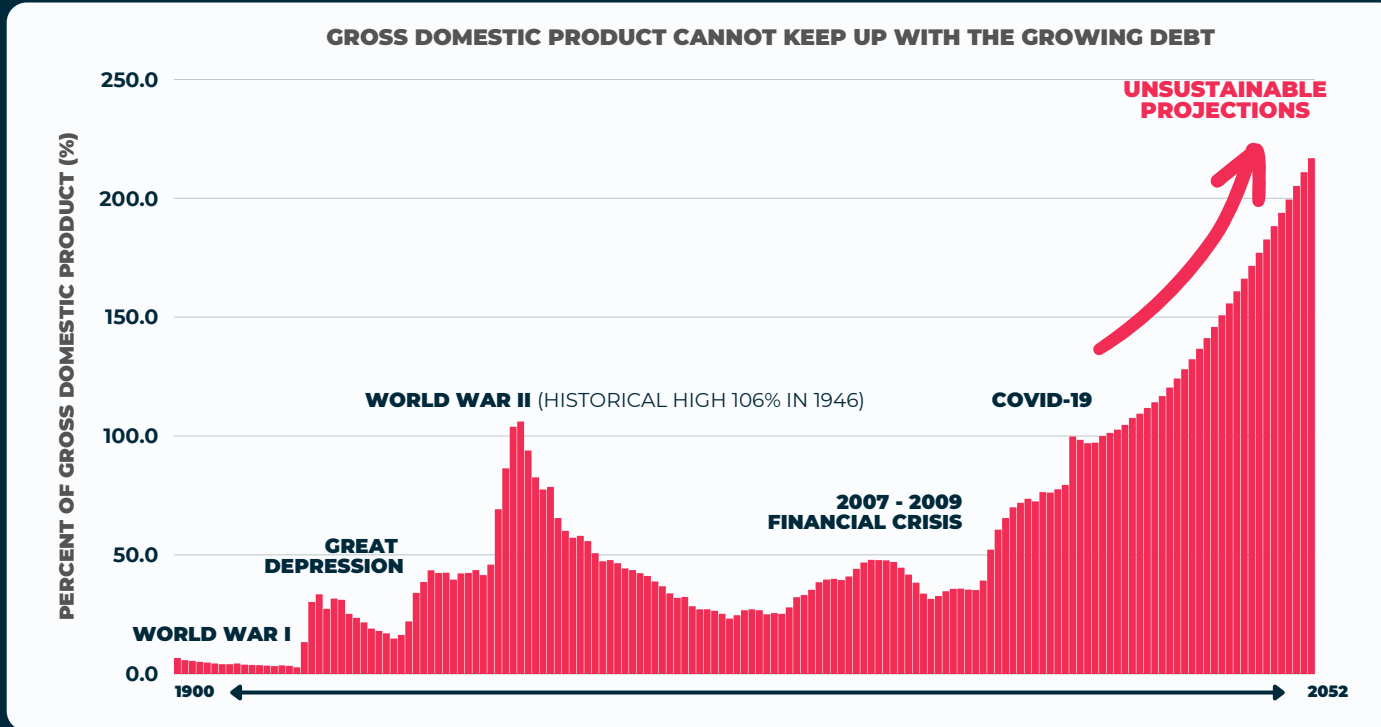

Let's get to work,
